

Welcome aboard!

Irizar

As part of our goal to generate a sense of well-being when entering the coach and leave a lasting impression on passengers at the end of the journey, we introduce the new range of Irizar seats.

In order to do so, we invite you to begin a journey to the inside to discover the new "Irizar Colour Collection" in which we gather together emerging global trends and create a new vision of our interior so that you feel at home, in a unique environment, in an Irizar environment.

VIP seats

For exquisite tastes

The Irizar 2+1 seat provides maximum exclusivity for luxury, customised, unique, safe and comfortable services that respond to the most demanding needs and expectations.

A market segment where the imagination, dreams and a passion for travel receive special attention.

The luxury begins with a design for maximum comfort thanks to the immaculate padding and excellent finish of each detail: seams, ergonomics and optionals.

These seats magnify the appeal of the vehicle's interior and may be upholstered in leather or moquette.

What's more, they come with a wide range of equipment as standard along with various customisable options to help make each trip enjoyable.

This is a seat for coaches intended for VIP passengers, such as top sports teams, musicians, authorities and for the most exclusive routes.

The same specifications are available for 1+1 seat distributions.

i8 seats

A symphony for the senses

A new exclusive Irizar seat available in two new designs: one more daring and avant-garde and another more simple and classic. Both are available in combinations of new, carefully selected materials, including moquette, flatwoven fabrics, leather and/or synthetic leather.

Although the visual elegance of the seats cannot be ignored, their development has focused on other concepts such as comfort, functionality and adaptability. Jointly designed with one of the leading European companies in the sector, the seats are not only supremely comfortable, they also include height-adjustable 3-point seatbelts, integrated entertainment screens, USB ports, tables, coat-hooks, handles integrated into the seat back... a whole range of possibilities to take care of the passenger and provide a unique experience; combining luxury and the Irizar personality.

pb seat

For those who want to travel in first class

Designed specifically and exclusively for this vehicle, the Irizar pb coach seats enjoy a high degree of aesthetic integration.

Their studied ergonomic and wrap-around design make them ideal for providing a high level of comfort on long trips.

The seat back, descending armrest and side cover are all integrated into the seat.

Levels of finish

Multiple optionals and upholstery combinations are available: from the most simple moquette to the highest degree of luxury, including leather seats with extra padding and side handles.

The rear is available in the standard plastic solution or in a warmer, softer fabric finish.

i6plus seat

For those looking for that extra touch of comfort

In our desire to improve and offer our passengers a better service, we have gone a step further with the development of a new exclusive Irizar seat.

The modern design of the i6 seat is retained with improved ergonomics for increased comfort, making this the preferred option for long journeys, day trips or even VIP travel.

There are also more customisable options, not only in terms of features, such as lateral displacement and Isofix safety systems, among others, but also in terms of upholstery.

i6 seat

For those who want to travel in first class

The Irizar i6 seats have been exclusively designed for Irizar, with the aim of creating a pleasant and spacious environment providing maximum comfort and well-being for the passengers, and in order to integrate with the interior design so that each kilometre of the journey is a unique experience.

They are noted for their modern design, ergonomics, durability, accessibility and weight optimisation.

What's more, they offer a wide range of customisable options.

The seats include a folding armrest with a simple mechanism, maintaining their robustness and reliability.

i4 seat

Made for durability

The Irizar i4 seats are robust and durable, with an optimal thickness to meet the requirements of the short to medium routes of the intercity segment, making them comfortable and practical seats.

What's more, they are ergonomic, spacious and very versatile, which can be seen in their wide range of optionals that include fixed seats with simple mechanisms (to eliminate maintenance and breakage costs).

Driver's seat

Pneumatic suspension seat with automatic weight regulation designed to guarantee the safety, ergonomics and comfort of the drivers, making the vehicles easier to handle and drive and complying with the stringent R14 regulations.

They include 3-point seatbelts, headrests integrated into the back, IPS, pneumatic suspension with several manual or automatic adjustments, intelligent memory functions and rapid descent, and different options including arms, swivelling, heating, etc. making these new generation seats the safest and most attractive on the market.

They can be upholstered in different moquette or leather options and equipped with the latest accessories and systems.

Isri 6860/875 NTS2 standard equipment

- 3-point seatbelt
- Pneumatic suspension with integrated automatic weight and height adjustment
- Integrated headrests
- Lumbar adjustment
- Reclining back
- Integrated pneumatic system
- Cushion depth and tilt adjustment and shock absorber adjustment
- Horizontal and pneumatic adjustment
- Vibrating chair for lane departure system
- Safe
- Seatbelt buckle alarm

Optionals

- Swivelling
- Heated seat
- Different upholstery finishes
- Bosch microphone with integrated Bluetooth

Courier seat

A smart and safe courier seat for each coach model

Ensure that couriers travel in a preferential spot in comfort and safety.

The articulated seat system is anatomic, has a solid and functional design, can be fixed to wall or shelf and occupies minimum space.

Reclining and/or fixed, with an adjustable headrest, it offers passengers an ergonomic posture.

With an excellent design, geometry and comfort, and with the option of synchronised cushion movements and self-raising armrests when the seat is vacated, it frees up maximum space for the access stairs of the coach.

Equipped with a retractable 3-point seatbelt.

Standard equipment

- Foldable cushion and anatomic back
- Two independently foldable armrests
- 3-point retractable seat belt

Optionals

- Different upholstery finishes
- Customisable anchoring system according to the coach
- Cushion depth of 440, 425, 405 or 370mm
- Cushion blocking mechanism
- Handgrip on seat cushion

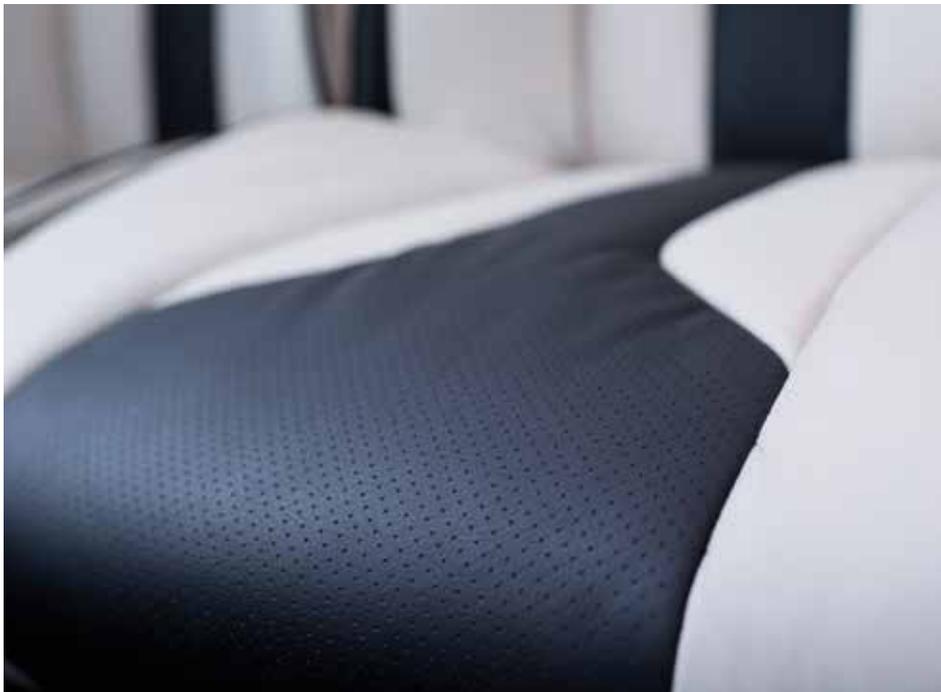

VIP Configurations

Irizar offers maximum adaptability enabling the client to configure the coach and other equipment options according to their own requirements, just as they want it.

This includes choosing between a wide range of different finishes and upholstery for the seats and a long list of on-board entertainment options: Wi-Fi system, USB ports and plugs, integrated screens, individual audio, navigation systems...

In other words, Irizar is at the forefront when it comes to offering our clients the latest technologies adapted to coaches.

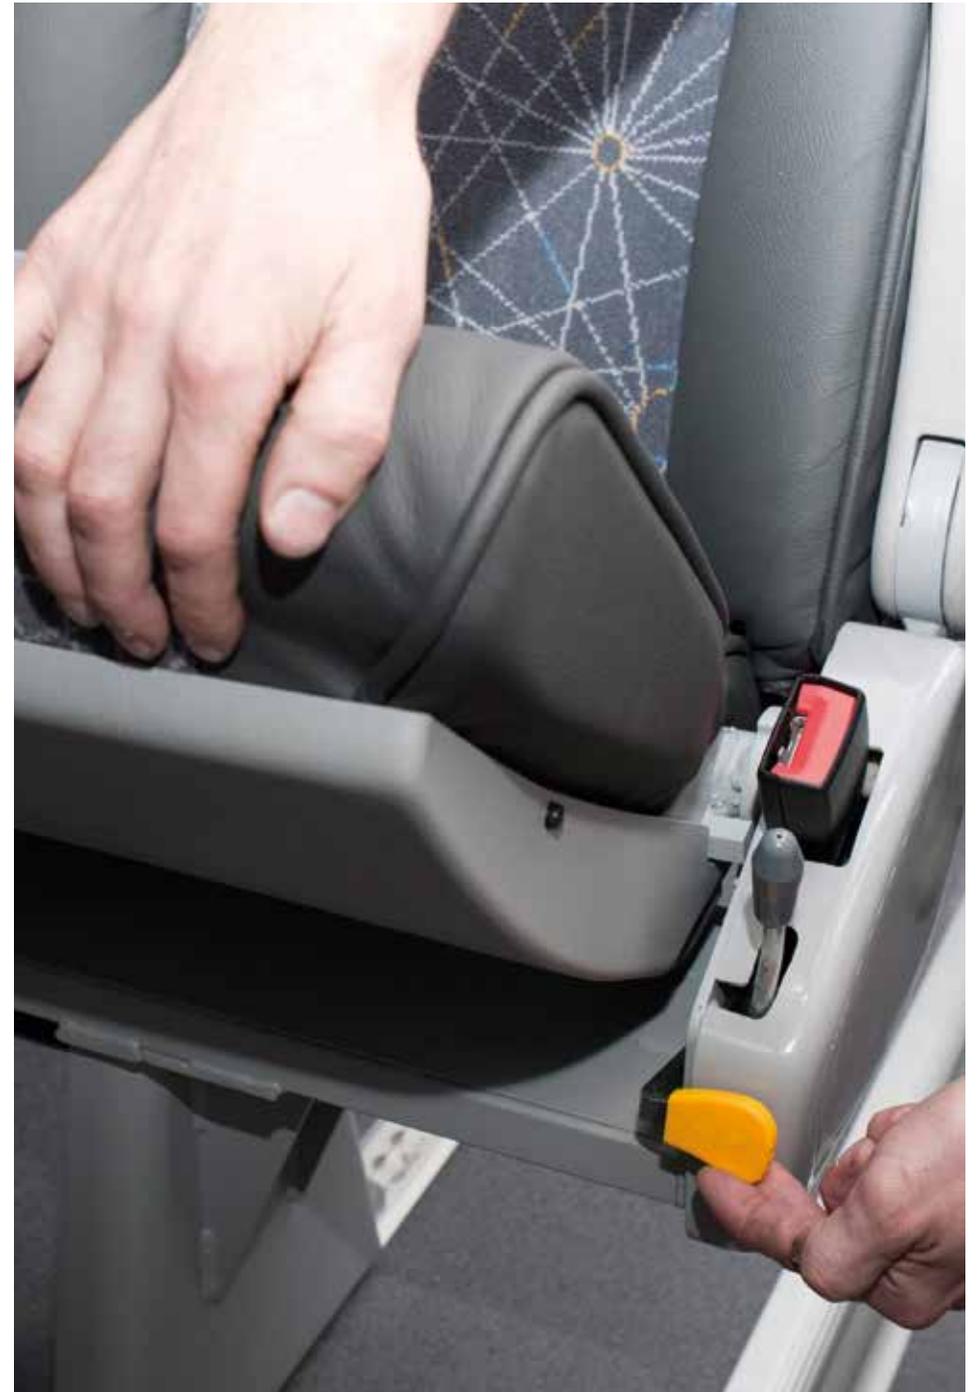

PRM Solutions (Persons with Reduced Mobility)

At Irizar we consider the comfort and needs of all passengers, and of course, of those that need more space, such as persons with reduced mobility and parents with prams and pushchairs.

As such, we have incorporated the following systems into our coaches, which enable an increase in space with minimum effort:

- Wheelchair anchoring system: enabling seats to be removed and installed quickly and easily, creating the space necessary for a wheelchair.
- A forward and backward displacing seat system that, thanks to a simple mechanism and removing the cushions from the seats, enables the necessary space to be created for a wheelchair.
- Seat system with foldable cushions and sliding legs that creates the space for a wheelchair without having to remove anything from the coach.
